“ Just learned of Carl's passing. So sorry to hear this sad news. I met Carl several years ago, I was a client of Debra's, and Carl had opened his engraving business. I also got to know Jennifer and Rachel. My prayers are with you all during this difficult time.

“ I was so very sorry to hear of Carl's passing. We worked together at RVSI Symbology Research Center. Carl spoke of his family often and I know that he loved them very much. My thoughts and prayers are with them on this sad, sad day. He was a wonderful man and will be missed.

“ Carl, you will be missed. This was such a shock for me to hear this very very sad news of Carl's passing. Carl and I worked together at Siemens PLM testing Solid Edge CAD software, his current job. He was very dependable, smart, easy to work with a super hard worker. He did so much for Solid Edge in the short time we worked together. I never saw him get angry, mad or even upset at anyone. He was always happy and had a smile on his face. Always happy to help out. My prayers and thoughts go out to his family. Carl, you will be missed.

CH

“ I've written these "condolences" before; it was never difficult for me to find words. Words are easy for me. This time it's different. I have never felt about a friend the way I feel about Carl. I have known him about 14 years now, since we worked together at the Eaton factory in Arab Alabama. We never lost touch.

No one will be surprised by my saying that his family was everything to Carl; and he never put his own welfare, pleasure or desires above them. He wouldn't even consider the possibility of doing something he'd have to hide from them. I know that. I tried to emulate that. A lot of us have regrets when something like this happens. Mine is that I took his friendship for granted.

I loved Carl Sewell.
