Tribute Wall

“ *My daddy was a cancer survivor of 20 years, at age 85 he had open heart surgery, triple bypass, heart valve replacement, and pacemaker. He never complained about either. July of 2014 he was told that he had dementia. July of 2019 We were told he had congestive heart failure, at hearing that my eyes teared knowing my daddy would be gone from us soon. He kept going til he couldnt walk without gasping for air. Then was unable to walk, eat, drink or speak. On Oct 5th @ 2:25 he took one final breath of death.. Peacefully* ❤️🙏🏻
